## Level-Up - Gaming Courses:

### Level-Up: Game development

Our course introduces industry hopefuls to the sector and some of the software used, giving them a head start into the industry and allowing them to take their skills further and build games from the comfort of their own homes. Using a variety of platforms, this course can help learners of all abilities and provide the much-needed connections with gaming industry specialists in South East Wales.

### Level-Up: Careers in the Gaming Industry

The Video Game industry has recently become the largest entertainment platform in the world, surpassing the film and music industries combined. There are over 12,000 jobs available in the industry requiring a multidisciplinary workforce including musicians, artists, animators, programmers, testers and business staff. This course will help participants learn about the industry, the roles that are available and the best routes into them.

### Level-Up: E-sports and event management

Competitive video games competitions have seen a surge in popularity over the last few years with many players gaining full-time employment in roles such as event management, blogging and vlogging, journalism or even through competing. Our course provides an overview of the fastest growing past time on the planet and helps learners plan, design and deliver their own gaming-related events.

### Level-Up: The League of Legendary Work Skills

This highly enjoyable and engaging skills programme teaches participants key workplace skills through the medium of video games. Players take part in a series of team-based interactive competitions as they work together to progress through the stages. The focus here is promoting the key transferrable skills such communication, negotiation and team-work to help build confidence and improve assertiveness.
